

CALIFORNIA WRITING PROJECT

BECAUSE WRITING MATTERS:

HELPING YOUR CHILDREN BECOME CONFIDENT, SKILLED WRITERS, IN AND BEYOND SCHOOL

Writing matters for success in the community, in school, in college, and in the workplace. Parents and guardians matter as their children learn to write, as they develop a real love for words and writing, and as they begin to understand the power of writing well, in and out of school. Even before school begins, the first and most important lessons children learn that help them become good writers and good students are learned in the home from parents, their first writing teachers.

This booklet is filled with writing activities and resources from teachers and project leaders across California—most of whom are also parents—for how they work in collaboration with parents to help children become confident, skilled writers. Filled with over forty writing activities for families that show children the power and pleasure of writing.

Order copies for PTA events, Back to School Nights, Family Literacy and Writing Programs, Young Writers Camps.
